Base:

Black

Table Top:

Charcoal

Black

Off White (Marble)

Building on the clean, light and versatile design of the Harbour Chair, Norm Architects are expanding the Harbour family with the elegant Harbour Column Table. "We sought to create a column table that would solve the issue of blending in and standing out," says Norm Architects' Jonas Bjerre-Poulsen. In other words, a design with a strong profile – yet the ability to work in harmony with surroundings of all styles.

The Harbour Column Table features a simple tabletop paired with a subtle yet sophisticated clover-shaped column profile: the same one you'll see in the new swivel version of the Harbour Chair. The pairing gives the modern design a classic, exclusive feel. While the table was originally designed for the Harbour Chair, it also works beautifully with other seating types and styles. At the heart of the Harbour family, after all, is a desire to meet our constantly evolving needs with adaptability and grace.

 At Menu Space – MENU's testing ground for new products and a creative hub that's part office, part café, and part co-working space – the Harbour Column Table has demonstrated an exceptional ability to meet every functional demand, while also pleasing the senses with its balanced, slim silhouette and tactility. The table is available with both round and rectangular tabletops, and in three heights – so finding the right one for your space is easy. You just might wonder how you managed without it.

The Harbour Column Table is available with four tabletop sizes: three round, one rectangular. Each can be crafted in charcoal linoleum, black oak veneer, or off white marble (Ø105 cm is only available in marble) to suit your space and design preferences. The column base is constructed in steel and aluminium in a black powder-coated finish, with dining, counter and bar heights to fit numerous needs in homes, workplaces, cafés, lobbies – the possibilities are endless. Mix and match bases and tabletops to create your ideal pairing.
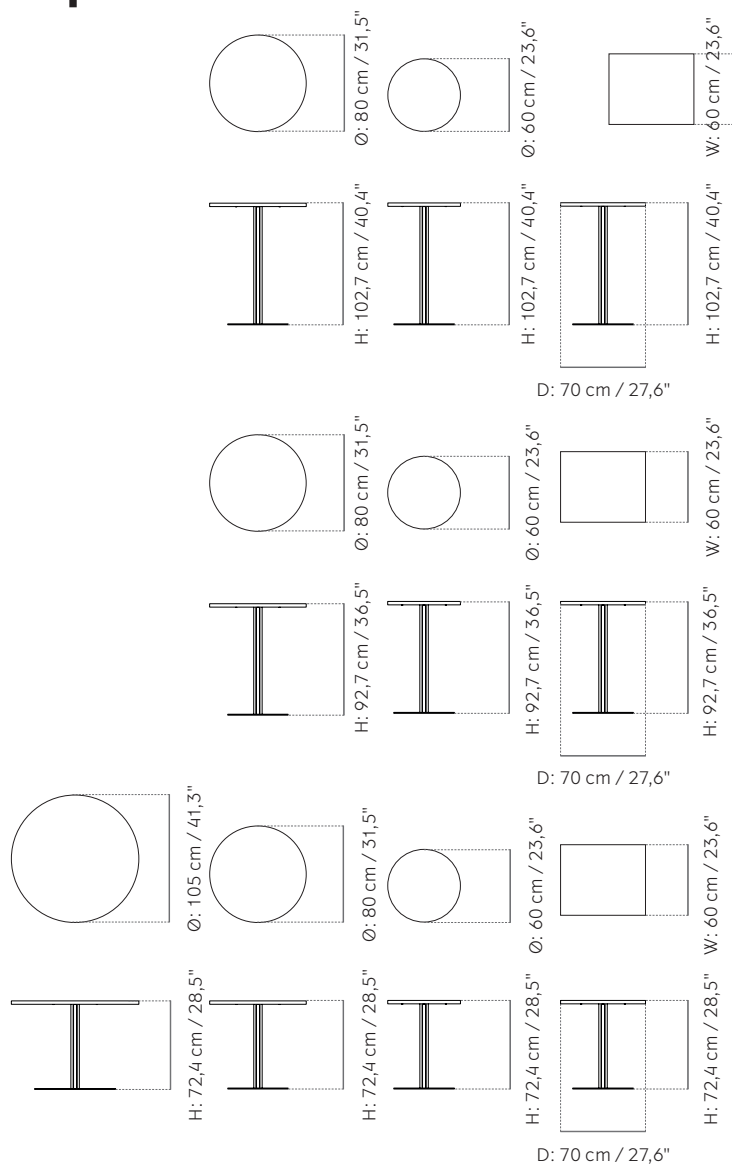

About the Designer

Founded in Copenhagen in 2008 by Jonas Bjerre-Poulsen and Kasper Rønn, Norm Architects specialise in residential architecture, commercial interiors, industrial design, photography and art direction. Today, the group regularly collaborates with MENU, helping to drive the evolution of the brand and its product offerings.

Norm Architects' name reflects the group's emphasis on the importance of drawing inspiration from norms and traditions within architecture and design – particularly the Scandinavian design principles of timeless aesthetics and natural materials, and the modernist values of restraint and refinement. Guided by these principles, Norm Architects produce design that unites good materials and craftsmanship, while embodying beauty, traditions, history and, most importantly, timeless simplicity, where there is nothing more to add or take away.
